### The coloured carnival called "Giù la maschera"

The Ladin Museum of Fassa is in San Giovanni, Vigo di Fassa. It offers the possibility to discover the valley's evolution through an innovative and multimedia perspective, with widescreen video – interactive -footage from the prehistory to the modern age.

The Bufoni is the wittiest and the most playful. The Lachè recites the phrases in Ladin that opens the parties. The Marascons make noise and clank with their cowbells, shaken step by step while dancing and jumping. Children can learn this and other funny stories on "carnascèr fascian" (Fassa's carnival in Ladin) at the workshop "Giù la maschera", today at 4.45 p.m. in the Ladin Museum in Vigo (cost: 3 euro). The thematic sections of the museum open the doors to the little hosts, who can explore them amongst masks, feasts and the most cheerful traditions of the Ladin carnival. Moreover, in special rooms they can realize the Bufon's hut or the Salvan's contour with colour paper scissors and glue. While children play, parents can visit the Museum (cost: 3 euro).

## Easy walks

### From Campitello to Cherpei

From the picturesque centre of Campitello walk through the street Strèda de Morandin and then through Strèda de Col da Faè in order to cross the old centre of the hamlet. Turn off the street Strèda de Col de Faè, walking for few metres the Street de Cherpei and going straight on along Street de Crousc. Nearby the last house, ascend a ramp keeping the right side, towards the ski lift along a lane lined by bushes. Before getting to the ski lift, follow the grassy path that crosses the lift ten meters below the its end. Continue walking on the lane in order to reach with a short ascent the bump Cherpei. The spot is shady and perfect to let children play freely. You come back to the village along the same path, backwards.

## Passepartout

### Flying over the park

Eagle, eagle owl, the black woodpeckers, black grouse and moor grouse (the biggest amongst roosters, in danger of extinction in many forests of the Alps) and other birds that chose the park Parco di Paneveggio di San Martino as their homeland. The population, which enriches in an extraordinary way the faunal heritage of the natural area (that covers Primiero, Fiemme and Fassa), is displayed in the conference "In volo nel parco. Un mondo di canti, piume e vivaci apparizioni", tonight at 9.00 p.m. in the Council Chamber of the Municipal building of Moena. A faunal expert of the park will explain the features and the curiosities of each species (including the migratory ones) with the footage of beautiful images shot in the park.

## Did you know that...

In Val di Fassa, in the last centuries, mothers used to wean their babies very soon after birth, for the reason that they had little milk because of the hard work in the fields and at home, restarted few time later after the childbirth. It happened that they gave the children the "jufa da pop" (a rye or wheat flour diluted with cow milk or water), usually before the baptism. This phenomenon was strictly linked with infant mortality rate: if the infant was strong and had a good stomach, he could digest it. Otherwise, he died due to digestive problems.

To participate in the initiatives for guests is compulsory to register at least one day in advance at the Tourist Offices of the Val di Fassa Card (ask your employer accommodation). The activities are reserved for guests of the associated structures all'Apt Val di Fassa.
