Did you know that...

In the past, the Ladin population need to find suitable pasture for their cattle. For this reason they climbed the mountains at high altitude, reaching even the passes that signed the borders between the valleys around Sella. However the passes did not represented strict borders. They actually were meeting point. Stories tell that the area "Pian de jiadoi" ("The playground for players" in Ladin) was the meeting point of shepherds from Fassa and Gardena. This fact proves the good relationship that always connected people living in the 2 valleys separated by "Jouf de Ciavazes", the Sella Pass.

To participate in the initiatives for guests is compulsory to register at least one day in advance at the Tourist Offices of the Val di Fassa Card (ask your employer accommodation). The activities are reserved for guests of the associated structures all Apt Val di Fassa.
