16 Nations at "Marcialonga Cycling Craft"

Marcialonga Cycling Craft gathers together professional-bikers as well as bike-enthusiasts, as well as the bigwigs of other sport disciplines, such as the Olympic champion Cristian Zorzi from Moena, Fulvio Valbusa and Fulvio Scola, cross country skiers that love biking in summer.

More than 2 thousand bikers, coming from 16 different countries, will take part today to the "Marcialonga Cycling Craft" (part of Alé Challenge), cycling version of the renowned cross country skiing competition (42nd edition on 25 January 2015). Year by year, the race is acquiring an increasingly international dimension. Predazzo (Val di Fiemme) hosts both the starting point at 8.00 am, and the finish line. Participants can choose between two variants: a 135 km itinerary (long-distance race) and a 80 km one (middle-distance). After reaching Monte San Pietro and Lavazè Pass (1st Mountain Grand Prix), the first route will return down to Predazzo and wind up to San Pellegrino Pass (2nd MGP), stretching across Moena and reaching Veneto's region through Valles Pass.

Amazing walks

From Pozza to Val Jumela's pasture

From Piazz de Ciampedel (1448 m) running up to Col Rodella Peak (2450 m). "Vertical Rodella" starts off at 10.00 am and a few strides, the uphill race gets really going. The strain will be balanced by the fascinating landscape the runners will encounter while ascending the mountain: a picturesque Way of the Cross until the hamlet of Pian, then path n. 528 passing through woods and green, leading up to Colrodella Summit. Here the first athletes are awaited after half an hour from the start, a 5 km distance and 1 km altitude-gap. The competition is one of the highlights of Outdoor Festival, from 27 to 29 June in Campitello. It also the 2nd stage of "La Sportiva Vertical Trophy", a 6-leg circuit hosted in Fiemme and Fassa valleys.

Did you know that...

In 1919, the Lithographic Factory of Trento printed the book "La Valle di Fassa" by Romedio Deluca from Pozza. The coated-leaf issue had 155 pages, with 76 photographic illustrations dating back the period before the Great War, and four maps with the mountain ridges of Marmolada, Sella, Sassolungo and Catinaccio. The contents of the text were about the geographic, historical, linguistic, and cultural description of Val di Fassa, with detailed info on the Dolomites surrounding the Ladin valley.

To participate in the initiatives for guests is compulsory to register at least one day in advance at the Tourist Offices of the Val di Fassa Card (ask your employer accommodation). The activities are reserved for guests of the associated structures all'Apt Val di Fassa.
