It's time for "Maratona dles Dolomites"

The event will be transmitted live on TV channel Rai 3, from the departure at 6.15 a.m. to 12.30 p.m for the first arrivals. Many aerial views of the Dolomites will be shown, together with the comments of several guests (picture: "Maratona dles Dolomites Enel" catalogue).

The 28th "Maratona dles dolomites" bike race's theme is "time", as the race director Michil Costa explains: "Time is subjective. It is important to set a beauty sharing, to spend a good time together: as nobody will give us back the time we lost irremediable, let's wish to live it with joy." And this is certainly a moment of glee for the 9.000 participants (out of 32.000 applicants) who will ride up and down 7 passes: Pordoi, Sella, Campolongo, Falzarego, Gardena, Valparola and Giau, which will be kept closed (Pordoi and Sella: 7.00 a.m. – 11.00 a.m.). Start from La Villa at 6.30 a.m., on three available tracks: "Lungo", along 138 km, with a gap of 4.320 m, "Medio", 106 km long with a gap of 3.130 m and "Sella Ronda", along 55 km with a gap of 1780 m.

Amazing hikes

From Lusia Lakes to Bocche chain

From Moena, drive to the valley cable car station of Lusia and get up to the second station. From here you get to Rifugio Passo Lusia and then, following path no.633 you arrive at the wonderful Lusia Lakes (1,20 h). Expert mountaineers can reach from here Forcella Lusia along the equipped path "Gronton" and arrive at Cima Bocche (2.745 m; 2 hrs.). Alternatively, you can follow path no.633 to Cima Bocche, then Bocche Lake and along path no.626 descend to Malga Bocche (1.946 m; 1,5 h). From here go up again on path no.621 till the crossroads for Lusia Lakes (2 hrs.), where you can take path no.633 that leads back to Rifugio Lusia and then to the cable car. It is worth to undertake this challenging but gratifying hike, for the beautiful landscape and the alpine environment.

Passepartout

The 110th birthday of Rifugio Taramelli

Today is a party day by Rifugio Taramelli, for its 110 years, in collaboration with the SUSAT (university section of the local mountaineers society). In 1903 the SAT decided to build this mountain placement among the Monzoni to host some eminent scholars of the International Geology congress which would have taken place the following year in Vienna. It was inaugurated in summer 1904 in presence of Torquato Taramelli, great geologist from the University of Pavia, voluntary in the Garibaldi's Army and honorary member of the SAT. The refuge, maintaining its original structure, is reachable from Pozza up along Val San Nicolò by car to the car parking in Pian de l'Ancona and from here on foot on a forest street, then on path n. 603 (1,45 h).

Did you know that...

The territory of the Dolomites (which got shaped around 250 million years ago, under the strong pressure of complex telluric movements) is quite particular in its configuration. In fact, the single mountain groups do not follow the typical chain shape, which in the alpine chain is aligned towards south-west to north-east, but the principle of the circular coral atoll, around a flat hollow, often of volcanic origins. That's why the Dolomites alternate peaks of an extraordinary uprightness to wide and luxuriant uplands, which housed the first human settlements.

To participate in the initiatives for guests is compulsory to register at least one day in advance at the Tourist Offices of the Val di Fassa Card (ask your employer accommodation). The activities are reserved for guests of the associated structures all'Apt Val di Fassa.

Some events of the day

"Te anter i Tobiè"

Canazei

11.00 a.m. – 12.00 a.m. – Town centre. After the Mass (10.30 a.m.) in Piazz de Sen Florian square, opening of the haylofts, the historical houses and the food stands.
