High-level walks

From Passo San Pellegrino to Fuciade Hollow

The state street n. 346 connects the town of Moena to San Pellegrino Pass (1.919 m). Descend for around 200 metres on the other side of the mountain Pass and after an overpass, turn left into the road ascending towards Hotel Miralago, where you have to leave your car. You can also park in the broad parking area on your right, before the overpass. From Miralago starts an easy dirt road, mostly flat, which brings you to the beautiful hollow of Fuciade, an extraordinary limestone Amphitheatre surrounded by imposing mountains, whose Ladin names are L'Om, Jigolè, Sas de Valfreida. The place is also particularly interesting from the botanic point of view, due to the presence of many plants and flowers, some of which are one-of-a-kind. The itinerary ends at Fuchiade Refuge (1.972 m; 1 h). Take the same route to go back.

Did you know that...

Once upon a time the "maridoz" (wedding) in Val di Fassa was seasoned with many traditions. One of these was the "Sgrign", the wedding chest, which the local artisans used to decorate with a six-point star, emblem that wished warmth, light and fertility. The Sgrign contained the dowry and was carried ceremoniously from the girl's family house to the new house. The groom used to welcome his wife and her belongings: the value of each object in the chest was indicated by a document. The chest was then kept in the "stua" (living room) or in the bedroom.
