History and traditions at "Festa ta Mont"

"Festa ta Mont" is an opportunity of having fun for children, with many games, the hay dives, the cableway, the pictures and the tour on the pony. Val San Nicolò can be reached only by shuttle or on foot. From the height of camping Vidor, the street is closed to traffic.

"Festa ta Mont" has been inaugurated yesterday evening in Pozza, with the parade of the volunteers and of "Mùsega da Poza" but it is really getting going today and tomorrow in Val San Nicolò. A special edition, that joins the Ladin tradition to the celebration of the Century since the burst of the Great War. After the opening of the kitchens at 11.00 a.m. with music and dances, at 2.30 p.m. the itinerant shows start and, at 5.00 p.m. by the "Art Village", on stage the play taken from "The Tartar Steppe", with Woody Neri, directed by Carmen Giordano. At 9.00 p.m., on stage "Notte incantata" (Enchanted Night), with the valley enlightened. From early morning, the artists of the association "Kultura" work on the parts of an opera about the conflict that will be set up tomorrow.

High - level walks

From Moena to Mount Toàc

This "High-level walk" starts from the picturesque hamlet of Sorte, over Moena: follow the easy road that leads to Malga Peniola. Before reaching it, take pathway no. 521. The taxing trail passes by the area named Frata and turns towards Coston da Ciamp, arriving at the peak Sas da Ciamp (2.193 m; 2,30 hrs.). Here, from this high and panoramic point, a lot of hiking trails begin: you can go back along the same footpath or expand your hike. Fit hikers can descend from Forcella Peniola first on path no. 524 and then on path no. 517 till Costalunga Pass and thence go back to Moena along path no. 519 (6.30 hrs.). Alternatively, they can walk along the ridge of Toàc pastures, reaching Mount Toàc (2.319 m). Along the footpath no. 517 you can return to Malga Peniola and then to Moena (5,30 hrs.).

Pozza di Fassa

Did you know that...

In Val di Fassa there are four "Siti d'Importanza Comunitaria" (SIC) – areas of community importance. These are areas particularly rich in vegetation and in presence of exclusive animal species, typical of the Dolomites, sometimes even in danger of extinction. The SIC of Val di Fassa are the peat bogs in Val Duron and Roncon, the orographic left of Val San Nicolò and the so called "Nodo del Latemar". In these areas we find biotypes (such as peat bogs or basins), where vegetal organisms and animal of the same – or different – species live.

To participate in the initiatives for guests is compulsory to register at least one day in advance at the Tourist Offices of the Val di Fassa Card (ask your employer accommodation). The activities are reserved for guests of the associated structures all'Apt Val di Fassa.
