Fireworks on "Lach de Soraga"

Lach de Soraga (picture) is, with Fedaia lake (2030 m) one of the two artificial basins in Fassa. The water mirror, between Soraga and Moena (400.000 square metres), was realised after the First World War and feeds the hydroelectric plants in Predazzo.

A jubilation of colours that makes the sky sparkle, enlightening the skyline of Roda di Vael, that recalls the outline of King Laurin, and the walls of Vallacia, made more enchanted by the reflection of the fireworks on Lach de Soraga. The pyrotechnic show of tonight at 9.00 p.m., on the lake, is unmissable, and stretches even to Moena. This has been the correctly guessed location of the show for years, still under the spirit of the Feast of the Assumption, where the games created by the fireworks multiply in the blue mirror and where the roar becomes stronger thanks to the echo created by the near mountains. The area surrounding the lake is perfect to enjoy from the first to the last bang and can be reached from the two villages along a pleasant walk when the night comes.

Amazing hikes

From Fontanazzo to Camerloi to Campitello

Along path n. 577 leave Fontanazzo di Sotto and continue to the crossroads with the forest road on the left. At the junction with the forest road that comes from Mazzin, ascend to the left. Pass over an aedicule and enter the plain on the valley, going on climbing. You will arrive to Rifugio Dona and to a narrowing and a plain that joins with path n. 580 Cross the meadows of Camerloi and as the path climbs again, leave path n. 580, going on on the right to Pas de Ciarejoles. The path goes down to Val Duron in the wide clearing of Ciamp de Grévena. Cut through the alders' wood to the bottom of the valley (0,45 h; 3,30 hrs) and go along the path that brings to Rifugio Micheluzzi, at 1850 m (0,45 h; 4,15 hrs), and thence to Campitello (5,00 hrs).

Did you know that...

On the 26th of December 1805, the Hapsburg were deprived of Tyrol, joined with Bavaria Kingdom, satellite of the French. Also Fassa became part of it. First, the Valley was under Chiusa, in Val d'Isarco, but in March 1807 it was fastened to Giudizio di Cavalese, that was under Bolzano. In 1808 South Tyrol was divided in two districts, one (in the area of the Adige) with Trento as main city, to which also Fassa referred to, and the other in the area of Isarco. The new State executed authoritative reforms and started a fight to the local Church, that annoyed the mountain people.

To participate in the initiatives for guests is compulsory to register at least one day in advance at the Tourist Offices of the Val di Fassa Card (ask your employer accommodation). The activities are reserved for guests of the associated structures all'Apt Val di Fassa.
