### "Dajaloo": afro-jazz fusions by Tonolo and Bianchetti

The jazz concert of the duo Pietro Tonolo and Giancarlo Bianchetti (in the picture) is the fourth appointment with "Ciampac & Buffaure Summer Festival". In case of bad weather the show will take place at 5.00 p.m., at the aquatic centre "Dòlaondes" in Canazei.

A lucky music meeting this one between Pietro Tonolo, sax player, and Giancarlo Bianchetti, guitarist, today in concert on the panoramic meadows of Ciampac over Alba di Canazei, at 2.00 p.m. The two have been collaborating for years on several projects, among which "Dajaloo" (already successfully presented in Fassa), that melts jazz and typical African rhythms, and that is proposed also at the today's show, giving to both the artists the possibility to express their talent. Tonolo is one of the most appreciated Italian and foreigner jazz musicians, with D'Andrea, Rava and Konitz. Bianchetti, after an intense concert activity and several collaborations, from Walrath to De Piscopo, has been one of the guitarists of Vinicio Capossela for years.

## Historical walks

### In Val San Nicolò along "Strada di Rusci"

From Pozza set off for Val San Nicolò. Leave the car at the car park Sauch and ascend along the narrow wood that hides on the left the so called path "Strada di Rusci", that bears this name because it was built by the Russian prisoners during the Great War. Follow the path, which alternates flat segments to moderate ascents, till you come across path n. 641 to "Lach de Lauscel" (Lagusel Lake). Turn left and cross the stream "Ruf de Sèn Nicolò" on the comfortable gangway on Ruf de Sèn Nicolò and enter the wood. The path continues descending to an alluvial stony ground and then crossing the bed of the stream "Giaf". Make your way now to the dirt road of the last stretch of Val San Nicolò. Going down to Baita Ciampié (1.826 m) you will reach the paved street to Sauch car park (2,15 h).

### How to know and face "Il volto del Male"

A testimony by those who are in contact with the darkest side of the human being, who have learned how to recognize it, to stop and assist it. This is the core of the tonight's meeting, at 9.00 p.m. by "La Gran Ciasa" in Soraga, entitled "Il volto del Male" (The Evil's face). Lecturers: the Dominican monk François-Marie Dermine, exorcist and president of Gris (Social-religious research and information group), Roberto Giacomelli, Police director, born in Predazzo, who has been in the flying squad of Trento for years and is now in charge in Trieste, and David Murgia, presenter of "Vade Retro" on TV2000. The appointment is part of "Ispirazioni d'estate", festival promoted by the deanery of Fassa, in collaboration with the Tourist Board and the events committees of the villages.

## Did you know that...

The very first botanical studies in Trentino date back to the 16th century. The first plants and flowers researchers were interested to the matter mostly because of their connection with empirical medicine. During the 17th century, some botanists arrived in Val di Fassa and in the evening, instead of resting, they used to classify plants and flowers picked up during the day. In 1855 the document "Florae Tiroliae Cisalpinae", written by the doctor Francesco Facchini Pontera from Val di Fassa, was published, in which the local flora was officially registered with exhaustive descriptions.

To participate in the initiatives for guests is compulsory to register at least one day in advance at the Tourist Offices of the Val di Fassa Card (ask your employer accommodation). The activities are reserved for guests of the associated structures all'Apt Val di Fassa.
