Much vivacity in Pozza with "A Spas co la Musega"

Shopping lovers, while listening to the music, tonight have also the possibility to go shopping: enlightened shop windows and the shops opening their doors, along Strada de Meida and its surroundings, invite guests to buy typical products of Fassa but not only.

With "A Spas co la Musega", tonight at 9.00 p.m., we discover the most cheerful side of Pozza, when everybody meets on Strada de Meida street (closed to traffic) to have fun among delicacies to taste and, obviously, much music. The music band "Musega da Poza" does the honours, playing the most beautiful tracks of its repertoire, while the "Schuhplattler" from Campitello perform in folk dances. Pop-rock music will be played by "Cajones" from Moena and the tracks by "Roberta e il suo gruppo" can be danced by everybody. An amusing night also for the children, thanks to the entertainment by "Simonetta e le Alpen Girls", and even for motors' lovers that will have the possibility to admire the trail bikes of the association "Rode a motor".

Easy walks

"Sora i prè": from Pera to Vigo

"Along the meadows": The track develops along the low slopes of Ciampedie, at the limit between the wood and the meadows of Sorapozza. The track alternates flat stretches with moderate ascents and it is mostly shady and equipped with tables and benches in some panoramic points. This easy walk starts from Strada de la Taboca street in Pera, to be covered until the end of the hamlet, walking on the right of a woodshed. Ascend a dirt road, turning on the left among the green meadows. After a flat stretch you will gradually meet the wood. Walk towards the village of Pozza (the walk can start also from here, with an easy access from the path "Trois de Vich") and Vigo. On your right you can enjoy the view on Costabella and over the group of Valacia. Enter the village of Vigo along Strada de Piz.

War, peaks and memories

Michele Simonetti Federspiel is the superintendent of "La Gran Vera", the ongoing exhibition in Moena, and honorary curator of the Ladin Museum. He is the protagonist of the tonight's meeting "La Gran Vera-Grande Guerra 1914-18, dalle cime al ricordo, percorso multimediale tra luoghi, testimonianze e immagini inedite del fronte dolomitico" (about the Great War 1914-1918, for a multimedia path among places, testimonies and pictures from the frontline on the Dolomites). Federspiel is an expert and scholar who has collected testimonies by Ladins who took part to the world conflict and is a great collector of war evidences (donated in part to the Museum). In the past, he fitted out other exhibitions and superintended publications like "La Gran Vera" (1990) and "Piccolo diario di Caterina" (1995).

Did you know that...

Among the most important linguists that began the studies on the Ladin language, we find the quality work of Graziadio Isaia Ascoli, professor at University of Milan (who was also named senator for life, thanks to his linguistic merits). Ascoli published the "Archivio glottologico italiano" in 1873. In the first volume of this monumental work he inserted also "Saggi Ladini" that, with the previous works by the Austrian Christian Schneller, triggered confrontation and opinions, often polemic for nationalistic reasons, on what at that time was mostly an unknown "linguistic subject".

To participate in the initiatives for guests is compulsory to register at least one day in advance at the Tourist Offices of the Val di Fassa Card (ask your employer accommodation). The activities are reserved for guests of the associated structures all'Apt Val di Fassa.
