Amazing hikes

From Campitello to Prà Molin to Val Duron

Leave Campitello on Strèda de Morandin street and then Strèda de Col da Faè street and ascend to a meadows area, thanks to a grassy street with short steep stretches. Keep ascending and enter the wood of mount Ponjin, and skirt the clearing of Prà Molin coming out diagonally on a plain sheer over Val Duron. Cross a wonderful wood, where the Swiss pine dominates. Enter the pasture in Ciampiè and go down to Rifugio Micheluzzi, after having crossed Ruf de Duron stream (2.30 hrs). Go back to Campitello, crossing the stream and taking a nice path on the left, first flat and then steep, that leads into the road to Val Duron in Pozates. Here you will find the restaurant Baita Fraines, halfway between Rifugio Micheluzzi and Campitello (0.45 h; 3.15 hrs).

Did you know that...

At the beginning of the XIX century, the farmers of Val di Fassa had a lacking knowledge of artificial fertilizers, they used classic manure and not always. They were afraid, in fact, that this news, retained too modern and not so trustable, was even afoot of serious illnesses for the cattle, their most precious good, that needed to be protected. The manure, usually, was brought to the snowed fields in winter on the sleighs, left there where it iced often and, in spring, spread with the pitchforks. Its principal goal was to grease pasture and meadows, not the ploughed fields.

To participate in the initiatives for guests is compulsory to register at least one day in advance at the Tourist Offices of the Val di Fassa Card (ask your employer accommodation). The activities are reserved for guests of the associated structures all'Apt Val di Fassa.
