"The locomotive runs and runs"... in Val di Fassa

The railway of Fiemme, used to link the Brennero to its surrounding valleys. Built for war purposes in 1918, it became later useful for tourism and locals. In 1929 was electrified, whereas in 1963 was dismantled because of the boom in using cars (Photo: E. Gori).

A piece of the old train arrives in Val di Fassa: it used to run on the railway "Ora-Predazzo", active from 1917 to 1963 in the near Val di Fiemme. After 50 years from the last run of that train, the association Transdolomites has organized several important events, among which the exposition of the original locomotive B51 not only in the main squares of the villages where the train used to pass, but also in those of the neighbour population that took a lot of advantages from this train, and still keep a good memory of it. So the old locomotive arrives this evening at Piazz de Sotegrava in Moena, where it stays until tomorrow. The next day, on 26th June, it takes off toward Vac' in Pozza. It arrives in Canazei on 27th and 28th June and "rests" here in Piazz Marconi.

Easy walks

From Canazei to Gries

This easy walk starts from the centre of Canazei. From here run down the Street Roma and take the Street de Cercenà on the left. Few meters after the bridge on Avisio river, walk following the left on the higher path that skirts upward the park of the Residence Villa Avisio. Continue beyond the plank that signs the limit of the meadows, keep walking by the ski lift Avisio, and follows its stream for some time. You then cross a little wood, and after a short descent, you will walk down again by the stream. Walk nearby a wide summer pasture, thereafter enter the wood cobbled with a gorgeous moss-covered carpet. You then come out on the state road near Pent (= bridge in Ladin) de la Roa. Overpass it and come back to Canazei through Street de Parèda.

Passepartout

The drops of health

Water of "bagn da tof" at Aloch (Pozza di Fassa) has gushed since ancient times from the rocks of Bellerophon at 1320 m, and represents the unique sulphuric spring of Trentino (sulphate, calcic, magnesian, fluorate and sulphurous). You can benefit from its properties at Terme Dolomia in Pozza, the thermal centre of new conception, which offers treatments to maintain and regain a good physical condition. You can pamper yourself, especially during your holiday. Thermal water preserves health and has a preventive action, both in therapy and rehab fields. Moreover, it contributes to increase the level of antioxidants. Terme di Dolomia offers mineral water therapy, aerosol therapy, fango-therapy and much more. In addition, operates within the National Health Service.

Did you know that...

According to the outcome of a topographical statistic of Tyrol, we know that Fassa's population in 1837 was made up by 3722 people: 1740 men and 1982 women. Among men there were also 9 priests that lived around the villages, and three aristocrats in Vigo. The most populous municipality was Canazei, with 800 inhabitants, but his neighbour Penia exceeded all the communities talking about the number of residents, and Canazei, Gries and even Alba, the Curia's seat followed it. Then Vigo, Pozza, Campitello, Pera, Soraga and Mazzin followed in order for density of population.

To participate in the initiatives for guests is compulsory to register at least one day in advance at the Tourist Offices of the Val di Fassa Card (ask your employer accommodation). The activities are reserved for guests of the associated structures all'Apt Val di Fassa.
