The unexpected "Marcialonga Cycling" in July

The "Soreghina" Arianna Iori, from Alba, will award the prizes at the end of the race, according to the tradition of the Marcialonga cross-country skiing race and the Marcialonga running. But another girl is to be elected on 1st August, receiving the sceptre from Arianna.

Usually this is the cycle race that inaugurates the bike's season in Val di Fassa. This year was planned for the 26th May, but the snowfalls during that period surprised all, and the organizers decided to shift the date to the 7th July. Starting point: Predazzo (Val di Fiemme) at 8.30 am. The 2000 riders can choose between 2 routes: the "Granfondo" (116 km long; 2.352 m of difference in height) and the "Mediofondo" (86 km long; 750 m of difference in height). The 1st itinerary starts from Val di Fiemme, passes on the Costalunga Pass and get to Val di Fassa, with ascents of 10% incline. On the Pass (87 km) there's the last finish line of Gpm, thence the riders dash downwards to Vigo, Soraga and Moena. At the end, with a final sprint, they get to the centre of Predazzo.

Amazing hikes

From the Refuge La Rezila to Malga Colvere to Fango

From Ronchi (nearby Moena) take the cable car till the second station. From there you walk towards Refuge La Rezila. From here, ascend till a crossroads where you make for path no.625. Pass by Malga Colvere and proceed on the forest road till the crossroads with path no.634 (to be ignored). After few steps, at a hairpin turn, leave that street and turn right downward the hollow. You will arrive to a steep slope, and then to Ciadion. Go ahead passing a crossroads, and overpass the stream Rif del Ciadion. The descent is from now on through wooden slopes, passing near some trenches of the Great War. Get in the forest road then (coming from Ronchi), and beyond the stream you ascend to the main road towards Fango (1,40 h; 2 hrs.). From here you go back to Ronchi along the forest road.

Passepartout

"Vertical Col Rodella": a dash to the peak.

It is a race in ascent the "Vertical Col Rodella", starting today at 10.00 am from Piazz de Sen Florian in Canazei, in the heart of the festival "Te anter i Tobie". The running race, valid for the circuit of running races "La Sportiva Vertical Trophy", spreads out on 944 m of ascent and 4,5 km of length. This year the trail has even a softer version, compared to the race of last year, but the final track does not change, and it is spectacular for all the athletes, who have northwards the Sella face and, in front of them and near the finishing line, the imposing Sassolungo. The runners finish at an altitude of 2.404 m in the proximity of the upper station of Col Rodella cable car (Campitello) (get back with the cable car). The prize giving will take place at 2.30 p.m. on the stage of the square Piazza S. Floriano.

Did you know that...

The period between 1816 and 1817 has passed into the annals of the history of Val di Fassa as the "l'an da la fam" (the year of hunger in Ladin). The heavy snowfalls during the winter and springtime, and the incessant pouring rain, didn't ripen the wheat. The fields, previously obtained with difficulty from the wood, couldn't be sowed because of the lack of seeds. Local people were completely worn out, and the emigration was for many the unique solution, especially for the breadwinners, in order to try to let their families survive.

To participate in the initiatives for guests is compulsory to register at least one day in advance at the Tourist Offices of the Val di Fassa Card (ask your employer accommodation). The activities are reserved for guests of the associated structures all'Apt Val di Fassa.
