Musical notes at "Canazei under the stars"

For the event "Canazei under the stars" tonight Strèda de Parèda will be closed from 9 to 11 pm, from the Strèda Dolomites to the roundabout to Alba and the Passes Pordoi and Sella. The vehicles' passage will be guaranteed along the other roads.

For the summer season returns one of the funniest appointments of Val di Fassa: "Canazei under the stars". Tonight, starting at 9.00 pm, the street Strèda de Pareda - closed to traffic for the event - turns into a stage, welcoming different performance. The Band "Musega Auta Fascia" has the honour to inaugurate the show with trumpets and drums sounds, and afterwards several corners of the street host characteristic folks groups playing rock, rap, and pop pieces to entertain the youngsters. On the stage there will be also the dancers of the Folk Group of the village, wearing the "guanc" (traditional clothing), that dance on the music from Val di Fassa and South Tyrol. Everybody is invited to taste the sweet delicacies of the Ladin Tradition.

Easy walks

From Vigo to Soraga

From the centre of Vigo walk towards Costalunga until the bridge on Ruf de Val, and take the Street de Pontac until a crossroads. Continue on the left side and go beyond a turnstile near the river upstream. A path brings you to the starting point of a fitness track. Go ahead up to a playground. On the opposite side of the clearing you can descend left along the forest road Vael until it ends at the street leading to Vallonga. Go to the hamlet. Ascend towards the Church of San Giovanni Nepomuceno and, at a fountain, turn left. Crossed the Street delle Dolomiti, descend then in the small valleys "Grave", traversed by small and easy-to-cross streams. Take the left path after the second stream. Then go upward to Tamion. You come back through the same path backwards.

Passepartout

The Museum of Cheese

Opened last May in the Caseificio Sociale Val di Fassa dairy (Pera, Fassa) and dedicated to dairy production, breeding and farming, "L Malghier" is the newest section of the Ladin Museum offering a small but detailed insight into the ancient culture of the Fassa Valley. The exhibition includes: antique photographs; widescreen video footage of livestock breeding and dairy production at high altitudes; and a collection of tools and utensils used throughout history showing the evolution of dairy production right up to the present day. Tomorrow at 10 am you can participate at "Chel dal formai... the cheese making", a guided tour in the museum with Fassa's cheese degustation (3 euro). For further information please contact the Ladin Museum on +39 0462 760182.

Did you know that...

In 1919, the Lithographic Factory of Trento printed the book "La Valle di Fassa" by Romedio Deluca from Pozza. The coated-leaf issue had 155 pages, with 76 photographic illustrations dating back the period before the Great War, and four maps with the mountain ridges of Marmolada, Sella, Sassolungo and Catinaccio. The contents of the text were about the geographic, historical, linguistic, and cultural description of Val di Fassa, with detailed info on the Dolomites surrounding the Ladin valley.

To participate in the initiatives for guests is compulsory to register at least one day in advance at the Tourist Offices of the Val di Fassa Card (ask your employer accommodation). The activities are reserved for guests of the associated structures all'Apt Val di Fassa.
