Easy walks

From Soraga to Tamion

This easy walk starts from the centre of Soraga: take the streets Strada del Cioch and Strada de Barbida, and you will arrive at the area bearing the same name. Got to the little Church, take the little street on the right, pass beyond a bow vault and then turn left upwards to the mountain. Go straight on and then right, ascending through wood and pastures, until you come to a plain with a larch and fir wood. A very nice panoramic point over Soraga, Moena and Tamion is here upward on the left. Proceed going ahead in the curvy path that brings you to a centenary larch wood. Beyond an ancient barn burnt by sun, you enter Tamion hamlet. Here you find two fountains, where you can get fresh. When you reach the centre of the hamlet, you can go back along the same route.

Did you know that...

In the very first years of the 20th century, the more promising guys of the valleys, including Val di Fassa, could have access to study thanks to a monthly subsidy of 16 florins, granted by the "Deutschen Schulverein" of several Austrian cities. The Austrian government in this way gathered many young people to whom introduce the teaching disciplines, in order to create a teaching group faithful to the Empire. The idea was to delimit the diffusion of irredentist's ever-increasing thoughts, especially in Val di Fassa, through the teaching actions aiming to spread the imperial claims.

To participate in the initiatives for guests is compulsory to register at least one day in advance at the Tourist Offices of the Val di Fassa Card (ask your employer accommodation). The activities are reserved for guests of the associated structures all'Apt Val di Fassa.
