Big show on the snow in Canazei

The snow used for the show is realized by the Ice Stadium in Alba and transported by truck in the centre of the village. A show in a show if you see the preparation of the ski slope for tonight, with the machines and the ski instructor, smoothing the cover till it becomes perfect.

The event changes the location and move to the street Strèda Roma, but the core of "Canazei Night Event Summer Edition" is the same as usual. A great show is expected for tonight at 9.00 p.m.: as if by magic, the event lets the snow fall in July in the very heart of the village and the ski instructors, members of the Ski School Marmolada, will astonish you with spectacular exhibitions. The music will accompany not only the demonstration of the ski technique but also some freestyle athletes performing incredible stunts. In addition, the guys of the Fassa Bike show off their ability as if the snow was asphalt. Finally, a romantic hint comes from the striking candlelight exhibit on the ski slope, which turns later in a bob /sleigh slope for children.

High-level hikes

From Gardeccia hollow to Antermoia Lake

By shuttle (with fee) you arrive at Gardeccia Refuge, where you follow path no.583. You go past Gran Fermeda and continue to ascend, passing a rill and a volcanic rocks area. Enter the gravel bed of the river and ascend the rocks helping you with rungs and wires. Through the grassy clumps you arrive at Passo delle Scalette (2 hrs.), reaching the Plain of Larsech Lake and Valle di Laussa. Go towards Passo di Laussa (1,30 h; 3,30 hrs.) and cross the Lasté d'Antermoia. You skirt then Antermoia Lake upward and descend toward the Refuge bearing the same name (0,30 h; 4hrs). Make your way to Mazzini, Fontanazzo or Campitello, respectively through Val De Udai (path no.580; 2,15 hrs.), Val di Dona (path no.580 and 577; 2,30hrs), and Val Duron (path no.578 and 532; 2,45 hrs.).

Ethic music with "Westbound live for Africa"

The ski stadium turns into a music stadium for a fundraising purpose. The area around the Aloch ski slope holds tonight the concert of "Westbound live for Africa" at 9.00 p.m. The group from South Tyrol, founded years ago by Doctor Toni Pizzocco, carries along the cheerfulness of the California sun thanks to the "westbound sound" rhythms. If you happen to participate to a concert of the band, you will probably get astonished by the enthusiasm they release, thanks to new arrangements, rhythm, and vocal pieces of the most famous artists of the past, such as Eagles, Simon & Garfunkel, Neil Young and others. During the concert the doctors volunteer members of the South Tyrol for Third World will gather offering, sell the CDs, products and gifts to support the hospital in Attat, Ethiopia.

Did you know that...

In several areas of the valley, for example the Ciampac in Alba, you can notice some dark rocks. They are undersea lava that date back 230 millions of years ago. They represent the evidence of the intense volcanic activity of the territory. The lava, gushed out at high temperature from the magmatic channel, and when met the fresh water of the sea, turned into a globular cluster. The external surface of these cluster cooled off rapidly from the inner part, making their structure fragile like the brad crust, shaping concentric layer structures.

To participate in the initiatives for guests is compulsory to register at least one day in advance at the Tourist Offices of the Val di Fassa Card (ask your employer accommodation). The activities are reserved for guests of the associated structures all'Apt Val di Fassa.
