Passepartout

Entrancing fireworks on Pezzè Lake

The cheerfulness of Mid August rules the atmosphere, and the fireworks dash fast to the sky, where they turn into an explosion of sounds and colours. They are the protagonist, tonight at 9.30 p.m. on the Pezzè Lake (an artificial lake as the Fedaià one), and, as the shooting stars, lighten the night. The basin is located between Soraga and Moena, and is the ideal spot for the pyrotechnical show, as the glows reflects on the lake and multiply, and in the meanwhile, the surrounding peaks amplify the sonorous effect. Moreover, the bank of that basin is the perfect place where to admire the show. You can reach the venue from the two villages, with a pleasant and easy after-dinner walk.

Did you know that...

At the end of the 16th century, Alba was connected with the hollow of Fuciade, nearby San Pellegrino Pass, by a path really frequented. The itinerary headed to the region Veneto and was duty-free, boundary spots, created only in 1866 (after the second Italian independency war). The route was long but easy, above all if people had to carry wares. From Alba they have to ascend the Contrin Valley, and after endless gravel paths, they got to Cirelle Pass, the only demanding stretch because of the permanent snow. Thereafter they descent to Fuciade, and from there to the villages in Veneto.

To participate in the initiatives for guests is compulsory to register at least one day in advance at the Tourist Offices of the Val di Fassa Card (ask your employer accommodation). The activities are reserved for guests of the associated structures all'Apt Val di Fassa.
