Itineraries

FROM PIAN DE FRATACES TO COL RODELLA

This amazing hike starts in Canazei. Drive (or walk) towards hotel Lupo Bianco at Pian de Frataces, park your car and leave the street going towards the bridge over Ruf de Antermont stream. Cross it and take path n. 655 that follows Col de Pica forest road. When you reach Ruf de Val stream, go on to the limit of the wood towards the Costa Rossa. Turn right and go up to Pian de Marizanela. You will have to face a steep track to the hollow of Val. Once arrived at a crossroads, go left ascending a wide plain (0,45 h), then cross it and go up entering Val Salei, proceeding towards Passo Sella (not much over Rifugio Valentini; 0,30 h; 1,15 h). From here, go left towards Rifugio Des Alpes (0,45 h; 2,00 hrs): here take the path that in 15 minutes brings to Col Rodella (2.484 m).

Did you know that...

The first official news from Catinaccio mountain chain came from some British mountaineers. They told to the English press, that suddenly published the story, about their excursion dating back to August 25th 1860. The group, made up of Gilbert Churchill and some other friends, spent the night in the Hotel “Corona D’oro” in Vigo and reached the Ciampedie hollow. The majestic location surrounded by the dazzling Dolomites peaks bewitched the mountaineers. This experience gave Churchill the inspiration for his famous book published in 1868, “The Dolomites Mountains”, the opera obtained a great success especially in the UK.
