Itineraries

FROM MOENA TO RONCHI

This easy stroll starts from Ramon Square in Moena: walk upwards and towards the traffic light, pass the bridge, and ascend the stairway on the right that brings you to Street de Sameda, at the end of which you will find the lovely hamlet of Sameda. Continue walking right along the Street de Sèn Roch upwards, follow this street that crosses the hamlet, and turn off it. While walking, you will pass by the First World War Austrian Fort. Keeping the river Rif the Sèn Pelegrin on your right side, you will appreciate a pleasant landscape. Keep going on until you reach Ronchi, near the station of Lusia cable car. The route is paved, easy and alternates flat stretches with slightly steep ones. Go back along the same route: make your way to Sameda and then Moena.

The complete schedule of events is available in the tourist offices of the valley.

Did you know that...

Since the first decades of the eighteenth century, primary schools already existed in every village of Fassa. Only the students of Penia had to go to Alba. Lessons were taught by priests, and when one of these couldn't teach any more, the breadwinners decided altogether who could take his place. The most influential religious authority of the valley was the priest of San Giovanni, to whom the control task was entrusted. After few times, he was officially nominated Regio Ispettore Scolastico (Royal School Inspector), with the commitment to visit regularly the schools.
