HIGHLIGHT

"TE ANTER I TOBIÈ": CLOSING DAY

Last day of the feast "Te anter i tobiè" in Canazei. The event (that started on the 7th of July), today will see (at 10.00 am) the holy mess at the San Floriano Square, followed by folk music and local dishes. The "Tobiè" feast, is one of the most important events of the valley and its traditions, and this year the event celebrates its 21st anniversary. The simplicity of the feast is present in each aspect of the local event, from the ancient buildings converted to ateliers, to artisans at work: all these aspects contribute to make the "Te anter i Tobiè" feast, an unmissable event, also thanks to its gastronomic offer.

Itineraries

IN VAL SAN NICOLÒ ON THE "STRADA DEI RUSSI"

This captivating itinerary starts from Pozza: to set off for Val San Nicolò, leave the car at the car park Saùch and ascend along the narrow wood that hides, on the left, the picturesque path "Strada de Rusci", so called because it was built by the Russian prisoners during the first World War. Follow the path, which alternates flat segments to moderate ascents, until you come across path n. 641 to "Lach de Lauscel" (Lagusel Lake). Turn left and cross the stream "Ruf de Sèn Nicolò" walking on the comfortable gangway above it and enter the wood. The path continues descending to an alluvial stony ground and then crossing the bed of the stream "Giaf". Make your way now to the dirt road of the last stretch of Val San Nicolò. Going down to Baita Ciampié (1.826 m) you will reach the paved street to Saùch car park (2,15 h).

The complete schedule of events is available in the tourist offices of the valley.

Did you know that...

Once upon a time, the inhabitants of Mazzin, Campestrin and Fontanazzo could reach Val Gardena or Castelrotto along the steep paths through the valleys Val Udai and Val di Dona, in order to trade food and wares. Actually, they did not like these pathways, and preferred to walk along the valley bottom and then ascend the dirt roads departing from Pera and Campitello. Here there were more frequented roads (that means less dangerous) and above all not as inaccessible as the others to carry heavy wagon with products, food and provender.
