Itineraries

FROM MOENA TO SORAGA

To undertake this "Easy walk", from Piazz de Ramon Square in Moena, follow the street towards Soraga, till you find the stairway leading to Someda hamlet on the right side. Walk upwards along Strada de Someda street till the small square of San Rocco's Church. Turn left on the road that faces the beautiful peaks of Catinaccio and Sassolungo. The road becomes then dirt road and leads, ascending slightly, to Soraga. When you reach the new roundabout in Pezzè you will see a little stream that indicates the antique boarder between the ancient Prince-Bishoprics of Trento and Bressanone. Here is the boundary stone. Now cross Soraga "Alta" and descend through Troi de Palua to the river park. Cross the bridge and go back to Moena along the cycle lane.

Did you know that...

In 1907 Karl Bindel, among the main promoters of the construction of Rifugio Bamberga on Fedaia, on initiative of a publishing house that had important seats in Leipzig and Stuttgart, published "Die Marmolata", a volume of few pages with some illustrations. The publication gathered with exhaustive information the main itineraries of excursions and alpine routes on the "Queen of the Dolomites". In particular, it described in details the hike from Fedaia to Contrin, as well as the ascent to the main peaks known at the time by alpinists and Dolomites' fans.
