HIGHLIGHT

PEACE NOTES AT "ALBA DELLE DOLOMITI"

There is only one thing able to unify cultures, traditions and ethnies: music. This is the aim of Orchestra di Piazza Vittorio, the biggest multiethnic orchestra in Europe - with 18 musicians from 10 nations, speaking 9 different languages - and which, on the 15th of July, will perform at 6.00 am at Col Margherita, for the event known as "Alba delle Dolomiti". "I believe. A thousand music shades for a peace symphony" is the title of the concert that merges original tracks with songs of Rossini, Britten and De Machaut, religious chants and Islamic notes, together with traditional instruments from all over Europe and Middel-East. For the event, the Col Margherita cable car will open at 4,00 am. The location of the concert is reachable with a 20 minutes walk.

Tickets for the cable car can be bought on pre-sale at a cost of 9,00€. In case of bad weather the concert will be at Navalge Theater Moena at 11.00 am.

Itineraries

FROM VAL MONZONI TO VAL SAN NICOLÒ

From the village of Pozza, drive along Val San Nicolò for 4,5 km, park your car at the crossroads to Val Monzoni, by the chapel of crucified Christ. Follow on your right the asphalt street that arrives at the wood, then go beyond the plank and take path n. 641 along Val Monzoni. Cross the stream, enter the wood and get to the green grazing of Monzoni. The path becomes steeper towards pass "del Pief" (1.45 h). Walk towards Palacia and Pecol and descend on your left. You will get to the wonderful Lagusel lake (0.15 h; 2.00 hrs). Go through the green grazing, you will find the ancient street that goes down to the valley bottom. Take "Strada di Rusci" (0.40 h; 2.40 hrs). Pass Ruf de Sèn Nicolò stream and, soon after, go back on the asphalt street that leads back to the crucified Christ (1.00 h; 3.40 hrs).

The complete schedule of events is available in the tourist offices of the valley.

Did you know that...

In the XIX Century, few innovations had been introduced in the agriculture of Fassa that had remained similar to that of the two preceding centuries for technique and practice. Many products, important for the survival of the population, such as corn and wheat, were to be bought out of the valley. In Val di Fassa, the highest among the valleys in Trentino, the ideal fields for the agriculture where not so many, and so the fields, down in the valley or at medium altitude and not too steep, were all disposed on the right side of the stream Avisio, to gain more exposure to the sun.

Initiatives reserved to guests with the Val di Fassa Card (ask your hotel/apartment) enrolments required by the previous day at the Tourist Offices. Activities are reserved for guests of the associated structures of Val di Fassa Tourist Board
