The parabolic slide provides a stopwatch to measure your speedtime and set a record

## TOP NEWS

### DÒLAONDES: FOURFOLD FUN

The water centre is almost three (inaugurated on 20 June 2012) and every year gains more popularity among people of every age. The Dòlaondes, water centre of Canazei, with its 2400 m of pools and gushes is a real paradise for all those who love swimming and knows the benefits of water. The fun is fourfold by the four themed areas in which the super-modern water centre is divided. The main area "Water and Fun" hosts five pools; one semi-Olympic, one fun pool with water features, neck showers and a parabolic slide 111 meters long, one pool just for kids and one external saltwater pool with hydromassage lounger. The other three areas are; "Eghes Wellness", "Sport and Fitness" and "Eat and Drink" to rest and enjoy the sun on the terrace or in the green area.

## Today in the valley

### SOREGHINA ON THE WATER

**STRÈDA DE CIAMP TRUJAN - PENIA DI CANAZEI AT 10 AM** Guided visit to the ancient venetian water sawmill "La Sìa", still working for the village.

WORKSHOP FOR CHILDREN INTRODUCTION TO THE MINERALOGY OF VAL DI FASSA.

## Itineraries

### FROM SORAGA TO BARDIDE AND THE CENTRE OF TAMION

This easy walk starts from the centre of Soraga: take the streets Strada del Ciochand Strada de Barbida, and you will arrive at the area bearing the same name. Got to the little Church, take the little street on the right, pass beyond above vault and then turn left upwards to the mountain. Go straight on and then right, ascending through wood and pastures, until you come to a plain with alarch and firwood. A very nice panoramic point over Soraga, Moena and Tamion is here upward on the left. Proceed going ahead in the curvy path that brings you to a centenary larch wood. Beyond an ancient barn burnt by sun, you enter Tamion hamlet. Here you find two fountains, where you can get fresh. When you reach the centre of the hamlet, go back along the same route.

## Did you know that...

Between the end of the Nineteenth Century and the beginning of the Twentieth Century, the cultivation of potatoes was introduced also in Val di Fassa. This newness caused a kind of revolution within the poor local agriculture. Wheat crops were replaced by potatoes farming, getting almost entirely abandoned. At that time, local population began to purchase corn flour and to cook the so called "polenta". This kind of porridge soon became most common food in the valley, integrating the consumption of rye and barley bread, used in the preparation of traditional local soups.

Initiatives reserved to guests with the Val di Fassa Card (ask your hotel/apartment) enrolments required by the previous day at the Tourist Offices. Activities are reserved for guests of the associated structures of Val di Fassa Tourist Board
