WITH "RADIO ZASTAVA" BALKAN SOUNDS AT PANORAMA MUSIC

Since their debut – in 2005 in Lucincino near Gorizia – the band had a great success, on the road, with their Balkan sounds, from the eastern Europe they bring thereal taste of that culture. Today at 2 p.m. Panorama Music Festival reaches the Ciampedie in Vigo di Fassa with this amazing band and its Balkan, reggae, punkrock and jazz flavours. Over the last ten years, the band explored in depth this music genre also thanks to fusion with other artists such as the movie director Emir Kusturica, they played all around the Balkans – gaining a huge success among locals – but also in Germany, Austria, Russia and London. Itineraries

FROM CANAZEI TO GRIES

This easy walk starts from the centre of Canazei. From here, run down the Roma Street and take the Cernenà Street on the left. Few meters after the bridge on the Avisio river, walk leftwards on the higher path that skirts upward the park of the Residence Villa Avisio. Continue beyond the plank that signs the limit of the meadows, keep on walking by the skilift Avisio, and follow its stream for awhile. Then, you will cross a little wood and, after a short descent, walk again down by the stream. Walk nearby a wide pasture, thereafter, enter the wood cobbled with a gorgeous moss-covered carpet. Then, come out on the state road near Pènt (=bridge in Ladin) de la Roa. Overpass it and come back to Canazei along Pareda Street.

Did you know that...

Once, the people of Val di Fassa made the butter at home: during the night, they used to store the milk in a fresh room, so that the milk's cream came to the surface. In this way, it was easier to remove it and process it with the churner. This tool – really important for the processing of butter – has been made in two shapes: until the 17th century it was a vertical piston, then it rotated horizontally. After the second World War, the home butter processing finished, but some families still keep the gears of grandfather and great-grandfather (often decorated by paintings and engraving).
