

GOOD MORNING VAL DI FASSA

TODAY

TOMORROW

Suggestions and tips for your holiday. Edited by Apt Val di Fassa

08/27/2017

In case of bad weather the concert will be held at 1.00 pm inside Chalet Valbona.

HIGHLIGHT

THE NEW "FRANCESCO MACCIANTI TRIO" AT "PANORAMA MUSIC"

Today at 1.00 pm VALbona, on Alpe Lusia, becomes the natural stage of the new music group "Francesco Maccianti Trio". The group is made up of a florentine pianist (which gives the name to the group) and other two talented artists, Ares Tavolazzi (double bass) and Roberto Gatto (drums). The trio perform jazz songs for the "Panorama Music", the festival organized by the local lifts company, with the aim of fostering the use of lifts and cable cars to reach the mountains and enjoying music. With Maccianti, Tavolazzi and Gatto, today's concert will be an opportunity for kids and families to enjoy famous jazz songs in the mountains.

Today in the valley

PIAN DEI FIACCONI PASSO FEDAIA - 1.00 PM

The local music group from Selva di Val Gardena, directed by Edi Gamper, will be performing at the hillside of the Marmolada.

Itineraries

FROM CAMPITELLO TO CHERPEI

From the characteristic centre of Campitello, along Strèda de Morandin and then along Strèda de Col da Faé streets, cross the most ancient area of the village. Leave Strèda de Col da Faé street covering, for few metres, Strèda de Cherpei street and going then straight along Strèda de Crousc. Beside the last house ascend along a short ramp. Beyond it, keeping the right, go towards the ski-lift along a narrow road skirted by bunches. Before reaching it, follow the grassy track that leads to the old lifts' track, around ten metres down the last pillar. Go back to the narrow road to reach, along a light ramp, the hill of Cherpei. The place is well-shaded and ideal to let children play freely. Come back to the village along the same track.

The complete schedule of events is available in the tourist offices of the valley.

INTRODUCTION TO GEOLOGY

INTRODUCTION TO GEOLOGY OF THE VALLEY, AT MUSEO MONZONI.

Did you know that...

The first studies about botanics in Trentino are dated back to the 16th century. The first researchers of plants and herbs were interested in their use in the empirical medical field. In Fassa, botanics came at the beginning of the 19th century, as documented. In the evening, in the smoky and dark lodgings, instead of relaxing, they used to categorize the herbs and plants collected during the day. In 1855 was published a posthumous collection made by the local doctor Francesco Facchini Pontera "Flora Tiroliae Cispinae" that can be considered as the milestone of categorization of local flora.

Initiatives reserved to guests with the Val di Fassa Card (ask your hotel/apartment) enrolments required by the previous day at the Tourist Offices . Activities are reserved for guests of the associated structures of Val di Fassa Tourist Board

WE THANK
