

# GOOD MORNING VAL DI FASSA

Suggestions and tips for your holiday. Edited by Apt Val di Fassa

06/29/2018

#petaloso is organised by the Dolomites Cheese Route in collaboration with Val di Fassa Tourist Board.

## HIGHLIGHT

### #PETALOSO, A WHOLE WEEK-END WITH FLOWERS

If blossoms' colours attract you as they do with bees, if the perfume of the grass inebriates you like a sophisticated fragrance, if you are eager to play "wil-they-won't-they", the #petaloso week-end is what you need! Three days to learn uses and properties of flowers and herbs in the Dolomites. It all begins today (6.30 p.m.) at QC Terme Dolomiti with the "Aperiterme", where petals and leaves are meet the local flavours. Tomorrow, after the delicious "Cheesenic at pool side" (12.00 p.m.) at Active Hotel Olympic, do not miss ( 3.00 p.m.) the sensory guided visit to the bio agricultural farm "Fiores" in Vigo. On Sunday, July 1 (9.30 a.m.) we go "hunting for herbs" with the guide and, to conclude with, (3.30 p.m.) let's taste some honey at the farmhouse Ciasa do Parè in Soraga (info and prices: [www.fassa.com](http://www.fassa.com)).

## Today in the valley

### "RUNNING": THE LAST ONE

#### MOUNTAIN LIFTS COURTYARD - ALBA DI CANAZEI AT 9.30 A.M.

## Itineraries

### FROM CAMPITELLO TO CHERPEI

From the picturesque centre of Campitello, along Strèda de Morandin and then along Strèda de Col da Faé, cross the most ancient area of the village. Leave Strèda de Col da Faé covering, for few metres, Strèda de Cherpei and going then straight along Strèda de Crousc. Beside the last house ascend along a short ramp. Beyond it, keeping the right, go towards the ski-lift along a narrow road skirted by bunches. Before reaching it, follow the grassy track that leads to the old lifts' track, around ten metres down the last pillar. Go back to the narrow road to reach, along a light ramp, the hill of Cherpei. The place is well-shaded and ideal to let children play free. Come back to the village along the same track.

## Did you know that...

Fassa has ancient fluvial origins and has been excavated by the main water course, the Avisio. The stream has also given the orientation of the valley, that goes from east to west till Mazzin, then from north-east to south-west till down in Moena. Along its ascents it gathers several streams. This minor courses, that have always been a precious source of water and, in modern times, even of energy, have caused problems to the population in the past, because of several floodings.

WE THANK
