

The "Skyrace", which this year changed its name, is at its 21st edition.

HIGHLIGHT

"DOLOMYTHS RUN SKYRACE": RUNNING WITH THE MYTHS

The third stage of the "DoloMyths Run" gets into the myth: at 8.30 a.m., from the centre of Canazei, the best skyrunners of the world will fight to conquer the title of a race (former Dolomites Skyrace) that is considered a legend among the Migu Skyrunner World Series for its track and for the beauty of its landscape. The itinerary leads the runners from the village at 1465 metres to Piz Boè at 3152 metres and back to the sought-after final line in Canazei, where the supporters welcome the huge champions that, after a couple of hours, manage to complete their race. At the end of the race, the appointment is in the square Piaz Marconi at 3.00 p.m. with the awarding of the winners that officially conclude the first edition of the "DoloMyths Run" (that started on July 14 with the "Ultra" and went on July 20 with the "Vertical").

Itineraries

FROM MOENA TO MEDIL, PRÀ COMPERT AND PENIA

Reached the southern part of the football field C. Benatti in Moena, take the dirt road that leads to Medil. Ascend crossing the grassy area of Val, going out from the wood into Medil hamlet. Pass the centre and nearby the Church continue to ascend along a cobbled road (no.517). Continue to Col de Moena. At the crossroads, take the easy path rightwards. Pass a ramp getting outwards onto the clearing Prà Compert. Border on the wood, and when you reach a stone with white and red sign, walk to the opposite side of the clearing. From here, descend a slope equipped with steps. Shortly the descent becomes easier and reaches the ancient hamlet of Penia. To go back to Moena, cross woods and meadows, leave the forest road, reach the hamlet of Sorte, and finally Moena.

Did you know that...

In the 19th century, English and German travellers and scientists began to choose the Dolomites as their Grand Tour destination. They felt the necessity to tell their experience amongst the marvellous rocks of the territory they were about to discover. Also the naturalist Manchester Churchill, together with his friend Gilbert and their wives, travelled to Carinzia, Tyrol, Carnia and Friuli, between 1861 and 1862. Once he got back to London, he wrote and published "The Dolomite Mountains" in 1864, a precious statement and masterpiece of touristic promotion of the time.
