## Itineraries

### FROM CAMPITELLO TO CHERPEI

From the characteristic centre of Campitello, along Strèda de Morandin and then along Strèda de Col da Faé streets, cross the most ancient area of the village. Leave Strèda de Col da Faé street coverin, for few metres, Strèda de Cherpei street and going then straight along Strèda de Crousc. Beside the last house ascend along a short ramp. Beyond it, keeping the right, go towards the ski-lift along a narrow road skirted by bunches. Before reaching it, follow the grassy track that leads to the old lifts' track, around ten metres down the last pillar. Go back to the narrow road to reach, along a light ramp, the hill of Cherpei. The place is well-shaded and ideal to let children play. Come back to the village along the same track.

## Did you know that...

The path that links Passo Fedaia to Passo Pordoi was used by the flour merchants from Belluno to cross the valleys quickly, avoiding the valley bottom. The flour was usually given in change of craftsmanship objects around the Ladin valleys. That's why this track is called "Viel dal Pan". Giving importance to this track, from where you can have a unique sight over Marmolada, the German doctor, Karl Bindel, president of Bamberg "Doav-Cai", covered it at the end of the 19th Century and took care of its arrangement.
