

On the occasion of "A Spas co la Musega, the main road Strada de Meida will be closed to the traffic.

HIGHLIGHT

"A SPAS CO LA MUSEGA"

Do not make commitments tonight: it's time for "A Spas co la Mùsega". In Pozza, from 6.00 p.m., Strada de Meida becomes a mix of melody and zing: the Pink Floyd tribute band "Pink Size" give a rock touch to the aperitif in the square Piazza del Malghèr, while the "Room 'n' Blues bring blues scents in the square Piazza Deodat de Dolomieu. After dinner (from 9.00 p.m.), the two groups will be flanked by the brass band "Musega da Poza" performing in the square Piazza the Comun, while the "Alpen Boys" entertain the public with their lively hits. During the soirée, the Vajolet ski school present its activity for the next winter season, while the firemen perform in spectacular manoeuvres, for the joy of the children. Food temptations are also in, with delicacies like the "fortaes", making the event even sweeter.

Itineraries

FROM CAMPITELLO TO CHERPEI

From the picturesque centre of Campitello, along the streets Strèda de Morandin and Strèda de Col da Faé, cross the most ancient area of the village. Leave Strèda de Col da Faé street covering, for few metres, Strèda de Cherpei and going then straight along Strèda de Crousc. Beside the last house, ascend along a short ramp. Then, keeping the right, go towards the ski-lift along a narrow road skirted by bunches. Before reaching it, follow the grassy track that leads to the old lifts' track, around ten metres down the last pillar. Go back to the narrow road to reach, along a light ramp, the hill of Cherpei. The place is well-shaded and ideal to let children play freely. Come back to the village along the same track.

The complete schedule of the events is available by the tourist offices of the valley.

Did you know that...

The first lean botanical studies in Trentino date back to the XVI century. The first flowers and plants searchers were mostly interested in their medical uses. Botanists arrived in Val di Fassa at the beginning of the XIX century, as reported. At night, in the dark and smoky inns, instead of resting, they would catalogue plants and flowers they had collected during the day. When the posthumous work of the local doctor Francesco Facchini Pontera "Flora Tiroliae Cisalpinae" came out in 1855, the local flora, with a detailed description of plants and flowers, could be considered "officialised".

Initiatives reserved to the guests with the Val di Fassa Card (ask your hotel/apartment). Enrolments required within the previous day by the Tourist Offices. The activities are reserved to the guests of the associated structures of Val di Fassa Tourist Board.
