

# GOOD MORNING VAL DI FASSA

Suggestions and tips for your holiday. Edited by Apt Val di Fassa

09/12/2018

"Dolaondes" (open in June 2012) is a Ladin word that means "follow the waves".

## HIGHLIGHT

### "DOLAONDES": WHEN WATER IS FUN FOR THE WHOLE FAMILY

If you are dynamic and so are your children, there's nothing better than spending some time between spurt and sprays at "Dolaondes" The water centre in Canazei has been conceived to let both adults and children have fun, thanks to its 2400 square metres dedicated to swimmers but also to those who are looking for some water fun. The facility is modern and cozy and it is divided in several themed areas. The main area is the "Water & Fun", with 5 pools: there is a semi-Olympic pool, a ludic pool with vortex, head showers and a parabolic slide of 111 metres, a pool for children with dedicated toys and an outside pool with salty water and whirlpool. Not to forget is "Eghes Wellness" with sauna, Turkish bath and massages as well as "Eat & Drink" to have a break and sunbathe on the terrace or in the outside green area.

## Itineraries

### FROM POZZA TO THE MEADOWS OF CIANCOAL TO MEIDA

Get to the bridge on the river Avisio, which links Pozza with Meida and walk along the sidewalk that skirts the state road towards Pera. After 200 metres, leave it, always following now Avisio's flow. Continue until the wooden bridge of Piciocaa. Once you have crossed it, you will arrive in front of a chapel recently restored and a large playground for children. Make your way to the lower path towards Meida, and cross a broad grassy plain in Ciancoal. When you arrive at the asphalt road bearing the same name, you begin to ascend. Afterwards turn right in the Street del Piz and enter Meida, where you find the Church of San Nicolò. From here, follow Street de Meida, and you will get back to the departure point.

## Did you know that...

Only at the end of XVIII century, due to the insistence of illnesses and pestilences that were haunting the valley, the first medical officer was designated in Val di Fassa. So he settled there. Some documents report that in 1804 the doctor Giacomo Soraperra would be nominated as resident doctor. His first act would have been to present an instance to the Judge of Vigo against the healers that used to work in the valley without any title. Then, he engaged in order to spread the use of vaccines against the most common epidemics that plagued the population.
