Val di Fassa has also several playgrounds at altitude.

HIGHLIGHT

12 PLAYGROUNDS TO HAVE FUN

Moena, Soraga, Vigo, Pozza, Pera, Mazzin, Campestrin, Fontanazzo, Campitello, Canazei, Alba and Penia. Each of these villages can make children happy. How? with a fabulous playground. Every village in Val di Fassa, either big or small, offer a green area, normally in the nearest of the wood and of the Avisio stream, where children can have fun. They can find: slides, swings, wooden houses, climbing structures, sandboxes, the beloved pulleys and much more. Mornings and afternoons run fast here, where the children are the absolute protagonists and mums, dads and grannies can always find a bench (in the shadow) where to rest. There are 12 playgrounds down in the valley in Val di Fassa. Getting bored is impossible if you just try them all!

Itineraries

FROM MOENA TO SAN PELLEGRINO TO FUCIADÉ REFUGE

The state street n. 346 connects the town of Moena to San Pellegrino Pass (1.919 m). Descend for some 200 metres on the other side of the mountain Pass and after an overpass, turn left into the road ascending towards Hotel Miralago, where you have to leave your car. You can also park in the broad parking area on your right, before the overpass. From Miralago starts an easy dirt road, mostly flat, which brings you to the beautiful hollow of Fuciade, an extraordinary limestone Amphitheatre surrounded by imposing mountains, whose Ladin names are L'Om, Jigolè, Sas de Valfreida. The place is also particularly interesting from the botanic point of view, due to the presence of many plants and flowers, some of which are one-of-a-kind. The itinerary ends at Fuchiade Hut (1.972 m; 1 h). Take the same route to go back.

Did you know that...

Human traces in Val di Fassa date back to the Mesolithic age (8000 years ago): groups of hunters coming from the flat land got to the mountains, rich in game. Giving evidence to their passage several worked flintstones, found at Sella di Ciamòl (2354 m), Sella Brunèch (2428 m) and Sella di Crèpa Nègra (2360 m), where even a splinter of basaltic stone was found. Other findings came to light in Val di Dona, Val Duron, and on the west face of Pordoì, whether on Sella Pass numerous hunting tools were found.
