HIGHLIGHT

"SAPORI D'AUTUNNO" IS COMING

If you are foodies, cooking enthusiasts, attentive consumers of TV programme that deal with the cuisine, Moena has a gourmet week ready for you: "Sapori d'Autunno", from September 15th to 22nd. The restaurants Malga Panna, Foresta, Ostaria Tyrol and Rifugio Fuciade, thanks to their excellent chefs, propose four menus (cost: between € 45 and 70, wine included) made with seasonal products, mostly locally grown. The scent of chanterells, boletus, pumpkin, nuts, almonds and cinnamon value the cooking of the pork, the rabbit, the trout and enrich with flavor ravioli, rice and homemade pasta. There is no lack of tastings of local cheese and a dignified ending between apple, chocolate, orange and caramel. And here you are, the new upcoming season is served.

Itineraries

FROM POZZA TO THE MEADOWS OF CIANCOAL TO MEIDA

Get to the bridge on Avisio River, which links Pozza with Meida and walk along the sidewalk that skirts the state road toward Pera. After 200 metres, leave it, always following now Avisio's flow. Continue until the wooden bridge of Piciocaa. Once you have crossed it, you will arrive in front of a chapel recently restored and a large playground for children. Make your way to the lower path towards Meida, and cross a broad grassy plain in Ciancoal. When you arrive at the asphalt road bearing the same name, you begin to ascend. Afterwards turn right in the Street del Piz and enter Meida, where you find the Church of San Nicolò. From here, follow Street de Meida, and you will get back to the departure point.

Did you know that...

Among the geologists that first wrote about the central Dolomites there was the Earl from Vicenza Marzari Pencati who, in 1819, disproved the widespread theory about the age of the volcanic rocks, till that moment considered older than sedimentary ones, taking the location of Canzoccoli, in the nearest of Predazzo, as an example. He was, though, discredited by the renowned German geologist Christian Leopold von Buch, according to whom Fassa and Fiemme were the key to interpreting the geological history of the Alps. Later studies made in Val Monzoni, associated to the area of Predazzo, agreed with Marzari Pencati, especially those by Edmund von Mojsisovics.

Initiatives reserved to the guests with the Val di Fassa Card (ask your hotel/apartment). Enrolments required within the previous day by the Tourist Offices. The activities are reserved to the guests of the associated structures of Val di Fassa Tourist Board.
