Itineraries

FROM VIGO TO VALLONGA AND TAMION

From the centre of Vigo go towards Costalunga to the bridge on the stream Ruf de Val: follow Strada de Pontac street to a crossroads, keep the left and pass the turnstile, towards the upstream flow. A path leads to a hollow, where the fitness track starts. Continue until you find an equipped area for children. On the other side of the clearing, descend leftwards along the forest road of Vael, until you cross the road leading to Vallonga. Now make your way to the hamlet. Walk up to San Giovanni Nepomuceno's Church and at the fountain turn left. After crossing Strada delle Dolomiti street, descend to the valleys "delle Grave", covered with narrow streams, easy to cross by walking on the right from the crossroads after the second stream. Go up to Tamion. Follow the same track to come back.

Did you know that...

In summer 1906 the luxury "Bamberger Haus" (Refuge Bamberga) on Fedaia was inaugurated through a majestic ceremony. The section of the DUÖAV from Bamberg, who realised it, invested 75 thousand marks (a fortune for the time) for the construction and the furniture of the 4-floors refuge. It boasted 25 rooms (48 beds with soft duvets), on-floor toilets with washbasins and running water, many halls and a veranda 100 square metres wide, from where you could admire the Marmolada glacier, the Vernel, the grazing of Fedaia's and the great face of Civetta.
