Glimpse of Gries di Canazei

HIGHLIGHTS

GRIES VILLAGE FEAST

Testimony of the first feast dates back to August 5th, 1787. During that period, the little church of Madonna della Neve (firstly built in 1570 and recently restored) in Gries, hamlet of Canazei, became the destination of many pilgrims due to the closing of the Pietralba (BZ) sanctuary ordered by the emperor Josef II. Even after the re-opening of Pietralba, the feast of August 5th has been maintained and is still celebrated. Today starts at 10.30 a.m. with the holy mass in the square of Gries (in case of bad weather at the parish church) followed by the parade with the brass band "Mùsega Auta Fascia", the folk group of Canazei and the carnival characters of the group "Grop de la Mèscre de Cianacei e Gries". Afterwards, a delicious aperitivo with "grostoi" (traditional sweets) and, at 12.30 p.m. lunch by the "Fassa Park" accompanied by traditional dances and music entertainment.

Today in the valley

RECREATION OF A GREAT WAR CAMP

PIAZ DE RAMON - MOENA WHOLE DAY

In the village centre, recreation of a typical military encampment of the First World War with actors in ancient costume.

ROPE, SNAP-HOOK AND FUN

INTRODUCTION TO CLIMBING FOR KIDS (7-14 YEARS OLD) WITH THE ALPINE GUIDES

Itineraries

FROM LA REZILA REFUGE TO MALGA COLVERE AND FANGO

From Ronchi (over Moena), take the first segment of the cable car to Lusia. Go down and walk towards the refuge La Rezila. From here, ascend until you meet a crossroads and make for path n. 625. Pass by Malga Colvere and proceed on the forest road till the crossroads with path n. 634 (to be ignored). After few steps, at a hairpin turn, leave that street and turn right downward the hollow. You will arrive to a steep slope, and then to the lowest boundary of Ciadinon. Go ahead passing a crossroads, and pass over the stream Rif del Ciadinon. Come down through the wooden slopes, passing by the ancient trenches of the Great War. Now take the forest road which comes from Ronchi and, beyond the stream, ascend to the main road towards Fango (1,40 h; 2 h) and go back to Ronchi along the forest road.

Did you know that...

Among the protected areas of Trentino there is also the biotope of Roncon, in the municipality of Vigo di Fassa at 1720 m. This is a small peat bog (spreading for around ½ hectare in surface) that lays on a small saddle, in an environmental context which is really striking. A pile of sphagnum - that is peat moss, typical of humid areas - characterizes the peat bog, which hosts rare vegetable organisms. This biotope represents one of the few humid areas in Val di Fassa and it is very important for the local amphibious, as it is a perfect place for breeding.

Initiatives reserved to guests with the Val di Fassa Card (ask your hotel/apartment) enrolments required by the previous day at the Tourist Offices. Activities are reserved for guests of the associated structures of Val di Fassa Tourist Board

WE THANK
