Antonio Ornano (in the pic) tonight on stage in Canazei.

## HIGHLIGHTS

### ORNANO, THE BIOLOGIST OF ZELIG, GIVES THE LESSON IN THE SQUARE OF CANAZEI

Hilarious comic show tonight at 9 p.m. in Piazz Marconi square in Canazei with Antonio Ornano. The popular comedian of the TV show Zelig amuses the public with his quips about sweet and “dumb” pets and the shrewd, strong wild predators. The teacher Ornano is very famous for his accurate analysis of the highly “civilized” mammalian: the human being and the relationships controlling his life. The couples’ life where usually women rules are a hot topic for Ornano’s performances. After classical graduation, the Ligurian actor (born in 1972), started to work for an important company of business services but he never gave up his passion for theatre and comedy. Among his most popular characters, besides the professor, we can find Space Cacace a biting bricklayer or Franco Prunes the ruthless life coach and finally Ignazio a plastic

## Itineraries

### FROM SORAGA TO BARBIDE AND THE CENTRE OF TAMION

From the centre of Soraga take Strada del Cioch and then Strada de Barbida streets, to reach the namesake quarterhood. Arrived at the church, take the road on the right and, again on the right, pass under an arch vault and go left towards the mountain. Go on straight and then to the right through woods and meadows to reach the flat in a wood of larches and firs. A small hill on the left is ideal to admire the view over Soraga, Moena and Tamion, perched high among the meadows. Go on straight and then along some turns that bring to a grade where thousand year old larches stand. After an ancient sun-burned hayloft, enter the hamlet of Tamion. Here you will meet two fountains where you can refresh, afterwards you will reach the centre of the hamlet. Go back along the same track.

## Did you know that...

At the end of XIX Century, the number of tourists that Val di Fassa hosted for a quite long period was increasing. But nothing like the mass tourism we have today. The summer season lasted no more than 40 days, from the half of July to the end of August, and in the whole valley there were no more than twenty among hotels, lodging and houses that hosted tourists. Excluded few hotels that were already renowned, the structures were described as quite spartan in the travel diaries, especially by German and English mountaineers.

WE THANK
