A glimpse of Canazei where the feast takes place

## HIGHLIGHTS

### ALPINI FEAST

Their hat is a symbol of solidarity and moral values but in Val di Fassa it also recalls some important events related to the Great War which strongly marked the modern history of the valley. The centenary of the first war occurs this year and many exhibitions, events and remembrances have been organized. Sympathy and cordiality have always characterized the Alpini who spread the same feelings at their feast from today till Sunday in Canazei nearby the roundabout along Strèda Pareda road. The feast is organised by the local association of Alpini which includes 143 members (almost all alpini except some friends) led by the president Christian Dantone. The two-days event is an occasion for visitors to taste local specialties of the Ladin tradition accompanied by music entertainment with the band "I Bonderes" and tomorrow with the folk music of Andrea.

## Itineraries

### FROM LA REZILA REFUGE TO MALGA COLVERE AND FANGO

From Ronchi (nearby Moena) take the cablecar till the 2nd station. From there you walk towards Refuge La Rezila. From here, ascend till a crossroads where you make for path no.625. Pass by Malga Colvere and continue on the forest road till the crossroads with path no.634 (to be ignored). After few steps, at a turn, leave that street and turn right downward the hollow. You will arrive to a steep slope, and then to Ciadinon. Go ahead passing a crossroads, and span the stream Rif del Ciadinon. The descent is from now on through wooden slopes, passing near some trenches of the Great War. Get in the forest road then (coming from Ronchi), and beyond the stream you ascend to the main road towards Fango (1,40 h; 2 hrs.). From here, you go back to Ronchi along the forest road.

## Did you know that...

When you reach Canazei from the Pordoi Pass, and you keep going on towards the region Veneto, you will encounter the monumental charnel house, located in the striking landscape of the high altitude meadows (at 2239 m). The building is an octagonal-shaped tower with a large circular base with two layers. 454 German soldiers and 8.128 Austro-Hungarian soldiers, fallen during the Great War, are buried in the central crypt. In the surroundings there are the graves (single or combined) of 842 German soldier of the Wehrmacht, fallen during the Second World War.
